

How to participate in the ONe Network token sale. Step-by-Step guide

Hi there!

Want to buy OBT tokens? That's great! Thanks for the attention to our project.

We prepared a step-by-step instruction for you. Follow it.

In case of uncovered questions we're glad to help you in our live [Telegram group](#)

Participation in the token sale includes 5 steps:

- Account registration
- Looking at our excellent converter to calculate amount of tokens
- Depositing the funds
- Buying tokens
- Tokens' withdrawal

We'll go through them and explain all of the details to make your process smooth and easy.

Let's begin.

Step 1: Account registration

Everything is starting with registration — let's get acquainted!

1. Go to the <https://secure.onesocialnetwork.io/> and click Sign Up tab.
2. Enter your Email, Username, Password, and push Sign Up button.

The screenshot shows a registration form for Onebit. At the top, the Onebit logo is displayed. Below the logo, there are two tabs: "SignIn" and "Sign Up". The "Sign Up" tab is selected and highlighted with a red underline. The form contains three input fields: "E-mail" (with a placeholder "Email"), "Username" (with a placeholder "Username"), and "Password" (with a placeholder "Password" and a toggle icon). A "Sign Up" button is located at the bottom of the form.

3. Confirm conditions and push Continue button

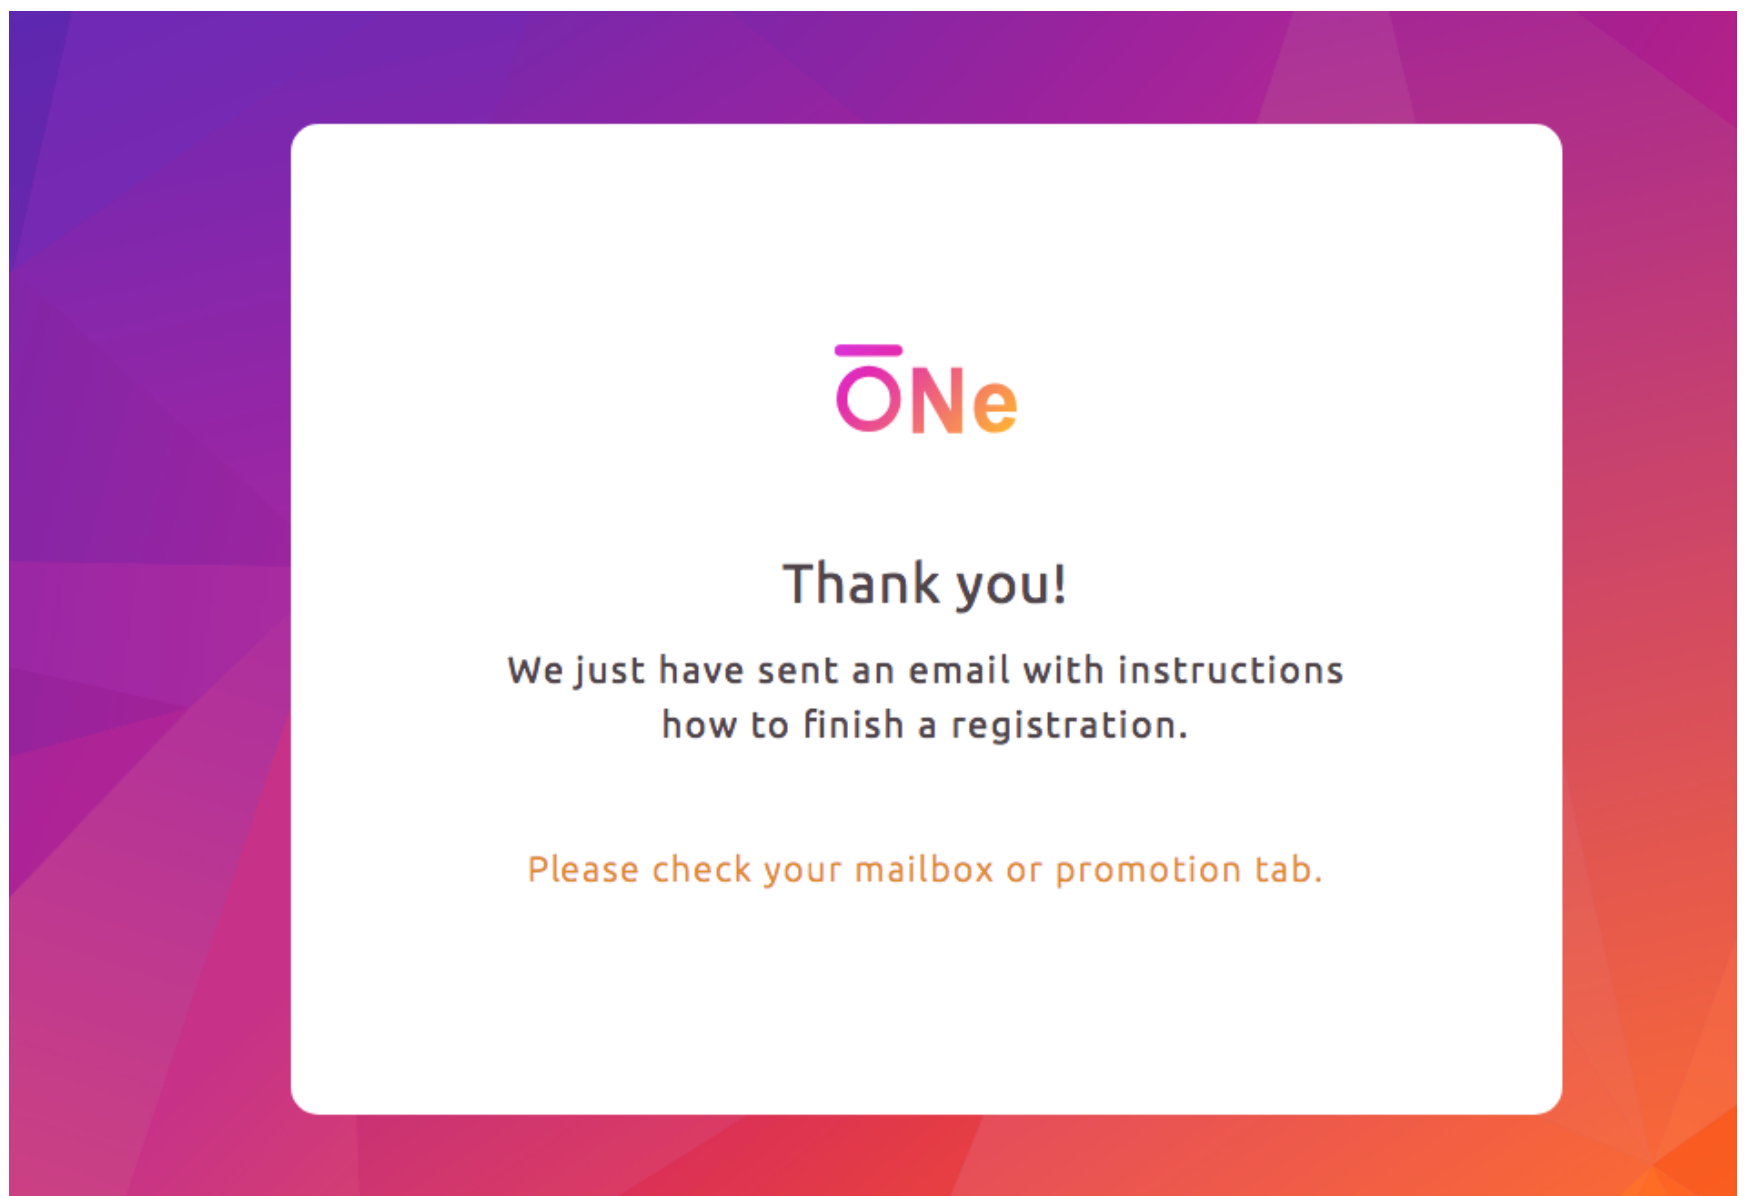

The screenshot shows a modal window titled "Conditions for Onebit token purchasing". The modal contains a list of six conditions, each preceded by a green checkmark icon. The conditions are:

- I hereby agree the [Token Sale Policy](#), [General Terms and Conditions](#), [Tokens Sale Privacy Policy](#) and [White Paper](#).
- I hereby confirm to be more than 18 years old and not under any restrictions to use the Website and participate in Onebit token sale or conduct any operations with cryptocurrency under applicable law, agree to follow any applicable KYC- and AML- procedures as stipulated by the Website Owner and confirm that all information provided to the Website Owner is true and accurate (for which I am fully liable) and that I do not act on behalf of any third party;
- I hereby confirm that I have never been engaged in any illegal activity, including but not limited to money laundering and financing of terrorism, and will not be using the Website for any illegal activity;
- I hereby confirm to solely control the address and/or cryptocurrency wallet used for the token sale contribution, not to be acting on behalf of any third party and not to transfer the control of mentioned address to any third party prior to having received the Onebit tokens;
- I hereby confirm that (a) I am not currently located in, or otherwise ordinarily resident in, a country or territory that is the target of United States economics or trade sanctions (currently, Cuba, Iran, Syria, North Korea, and the Crime region of Ukraine); (b) I am not identified on the U.S. Treasury Department's list of Specially Designated National and Blocked Persons, the U.S Commerce Department's Denied Person List, the EU Consolidated List of Persons, or similar lists of sanctioned persons, (c) I am not acting for or on behalf of any person on the above identified lists or the government of a country or territory that is the target of United States economic or trade sanctions; and (d) I am not otherwise the target of United States economic or trade sanctions;
- I hereby confirm not to be resident of, citizen of or located in a geographic area of US, OFAC and/or FAFT Sanctioned or Black Listed countries.

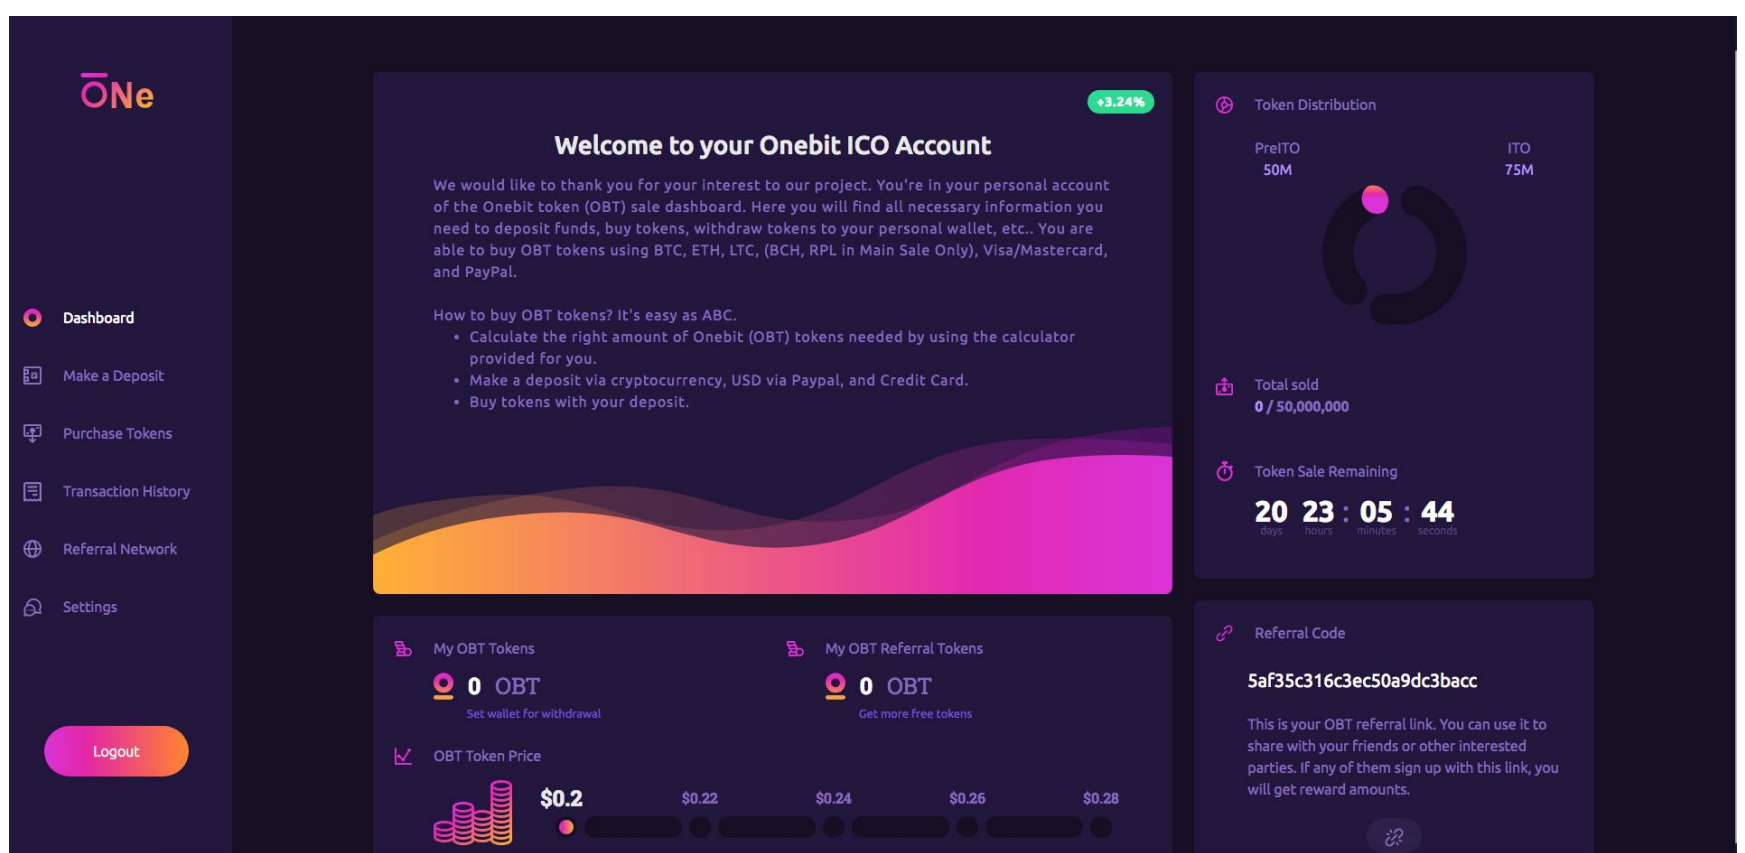

A "Continue" button is located at the bottom of the modal.

4. Confirm your email that ONE sends to you to complete registration process.

NOTE: You should push **VERIFY EMAIL TO GET STARTED** button on email, then you will be taken to your Onebit ITO account.

5. That's it—now you have an account on the Onebit token sale platform. Are you ready to buy some tokens? Let's move on!

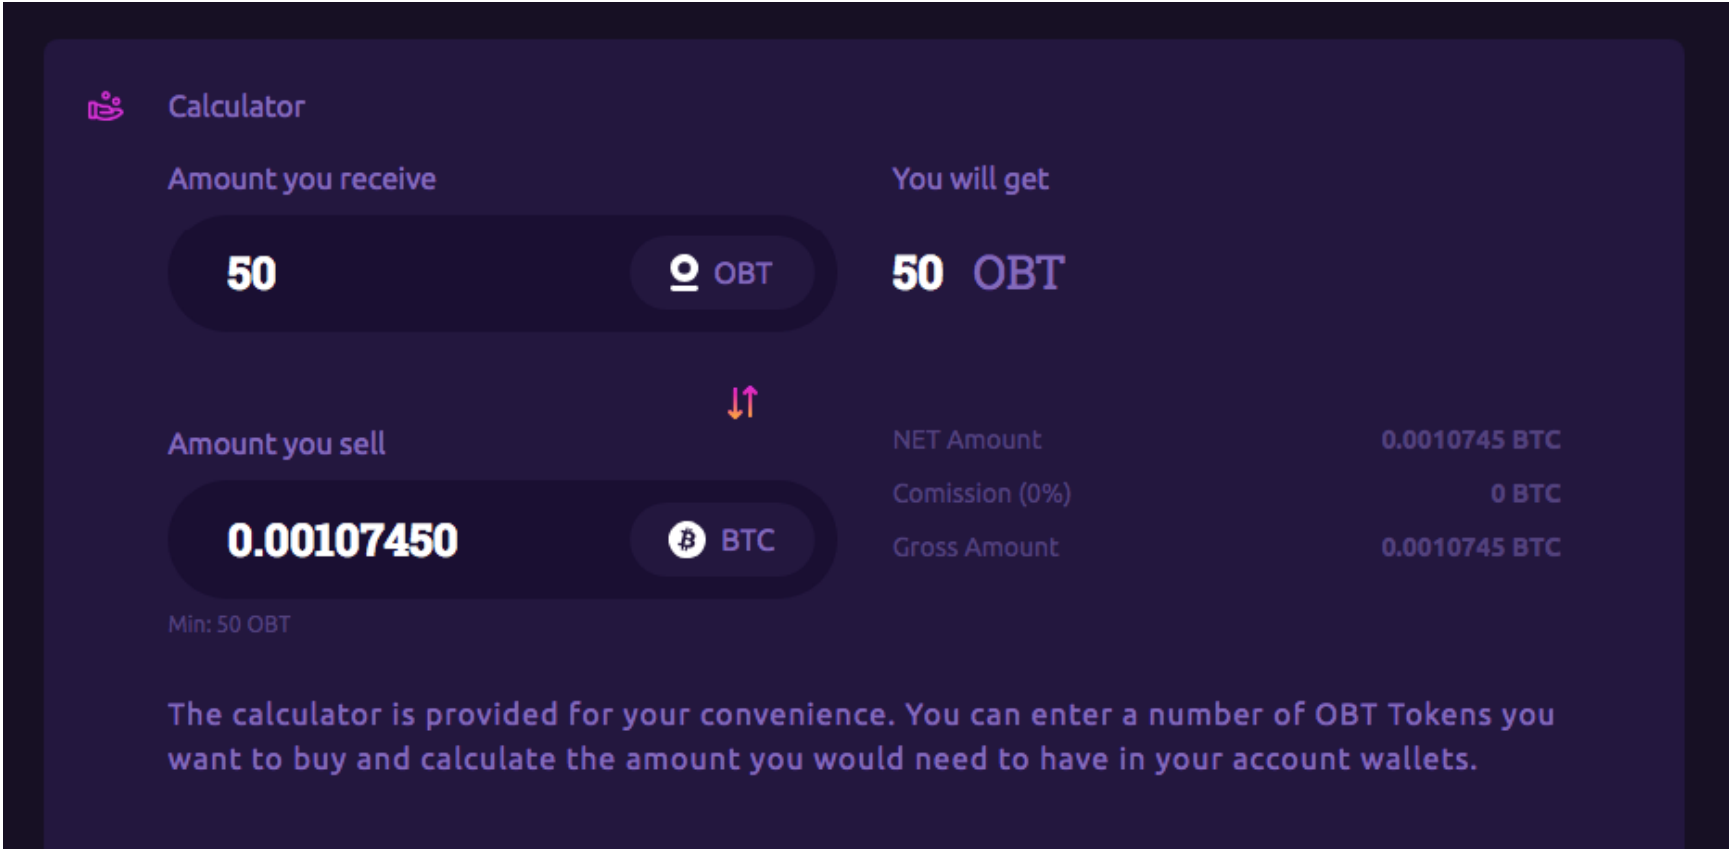

Step 2: How much should I pay? How many tokens can I get for my money?

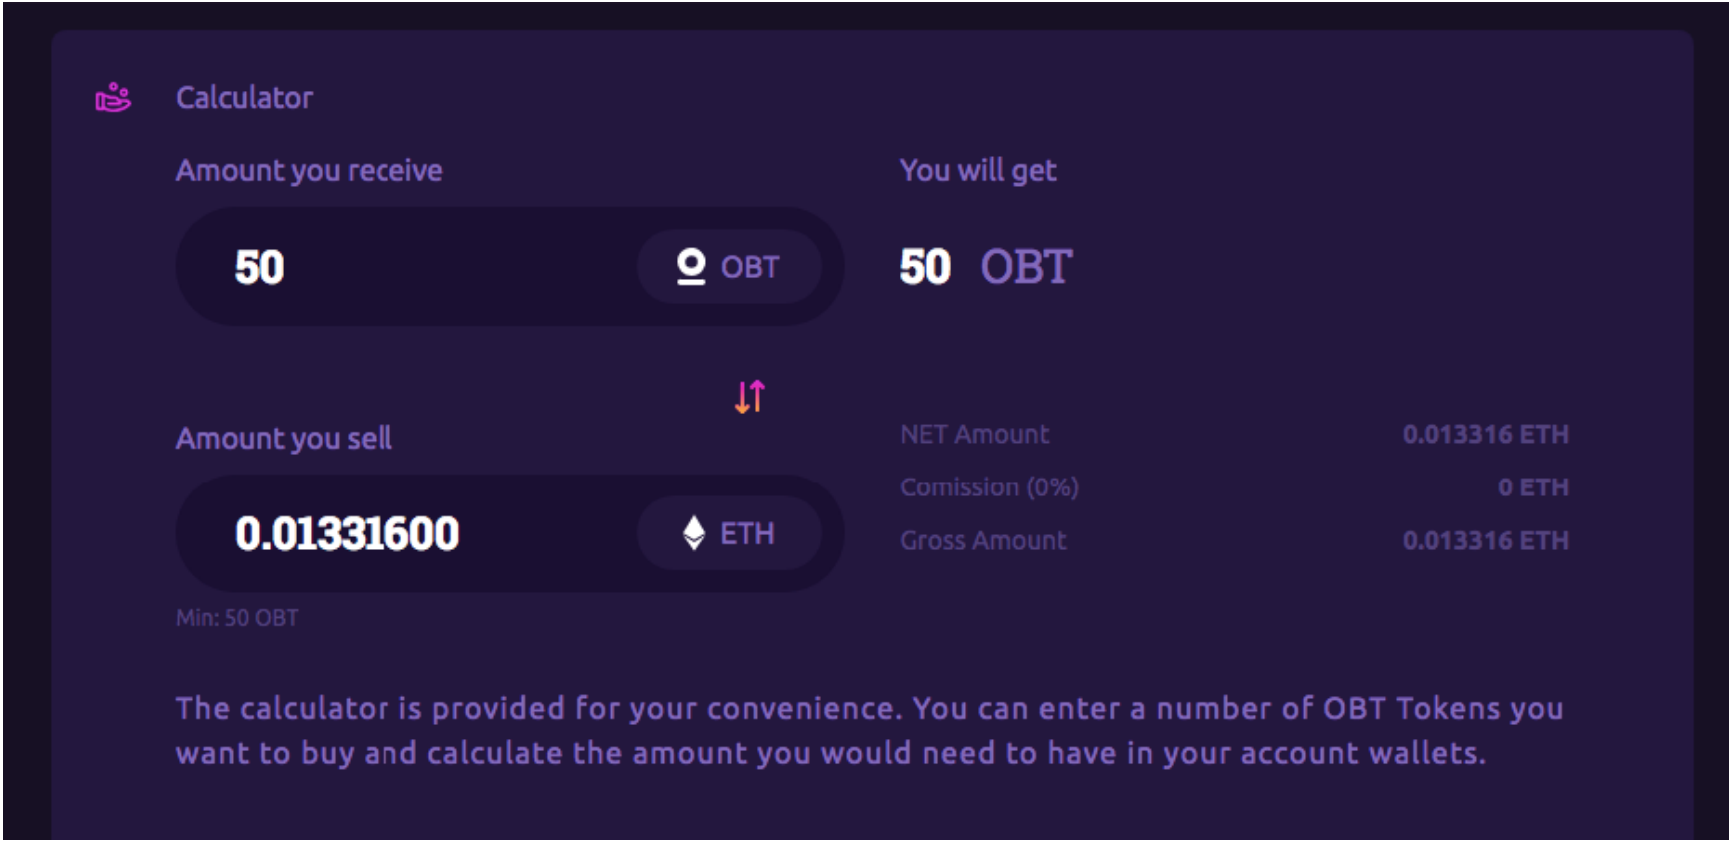

If you know the amount of money you want to deposit, but not sure about tokens volume you'll get—use our internal convertor for fast and easy calculation. You'll see how much you can spend in any currency and what amount of tokens you'll get.

Please, have a look how our converter works. It's as easy as ABC.

- 1. If you want to pay in BTC

- 2. If you want to pay with Ethereum

3. If you want to pay with USD

The screenshot shows a calculator interface with a dark blue background. At the top left, there is a calculator icon and the word "Calculator". Below this, there are two main input sections. The first section, "Amount you receive", has a text input field containing "500" and a dropdown menu showing "OBT". The second section, "Amount you sell", has a text input field containing "100.00000000" and a dropdown menu showing "Fiat". A double-headed arrow icon is positioned between these two sections. To the right of the "Amount you sell" section, there is a summary table with the following data:

NET Amount	100 PPL
Comission (0%)	0 PPL
Gross Amount	100 PPL

Below the input fields, there is a small text note: "Min: 50 OBT". At the bottom of the calculator, there is a disclaimer: "The calculator is provided for your convenience. You can enter a number of OBT Tokens you want to buy and calculate the amount you would need to have in your account wallets."

How to use a converter:

1. Enter the specific amount of OBT tokens on the top side of the form.
2. Choose your payment currency: BTC(Bitcoin), ETH(Ethereum), BCH(Bitcoin Cash), LTC(Litecoin), PPL(USD).
3. That's it—on the bottom side you will see the amount you have to pay in the chosen currency for your purchase.

Step 3: Make a deposit

After you calculate how much you should pay for your portion of tokens let's move on to the next step—deposit. There are 2 different options to make a deposit.

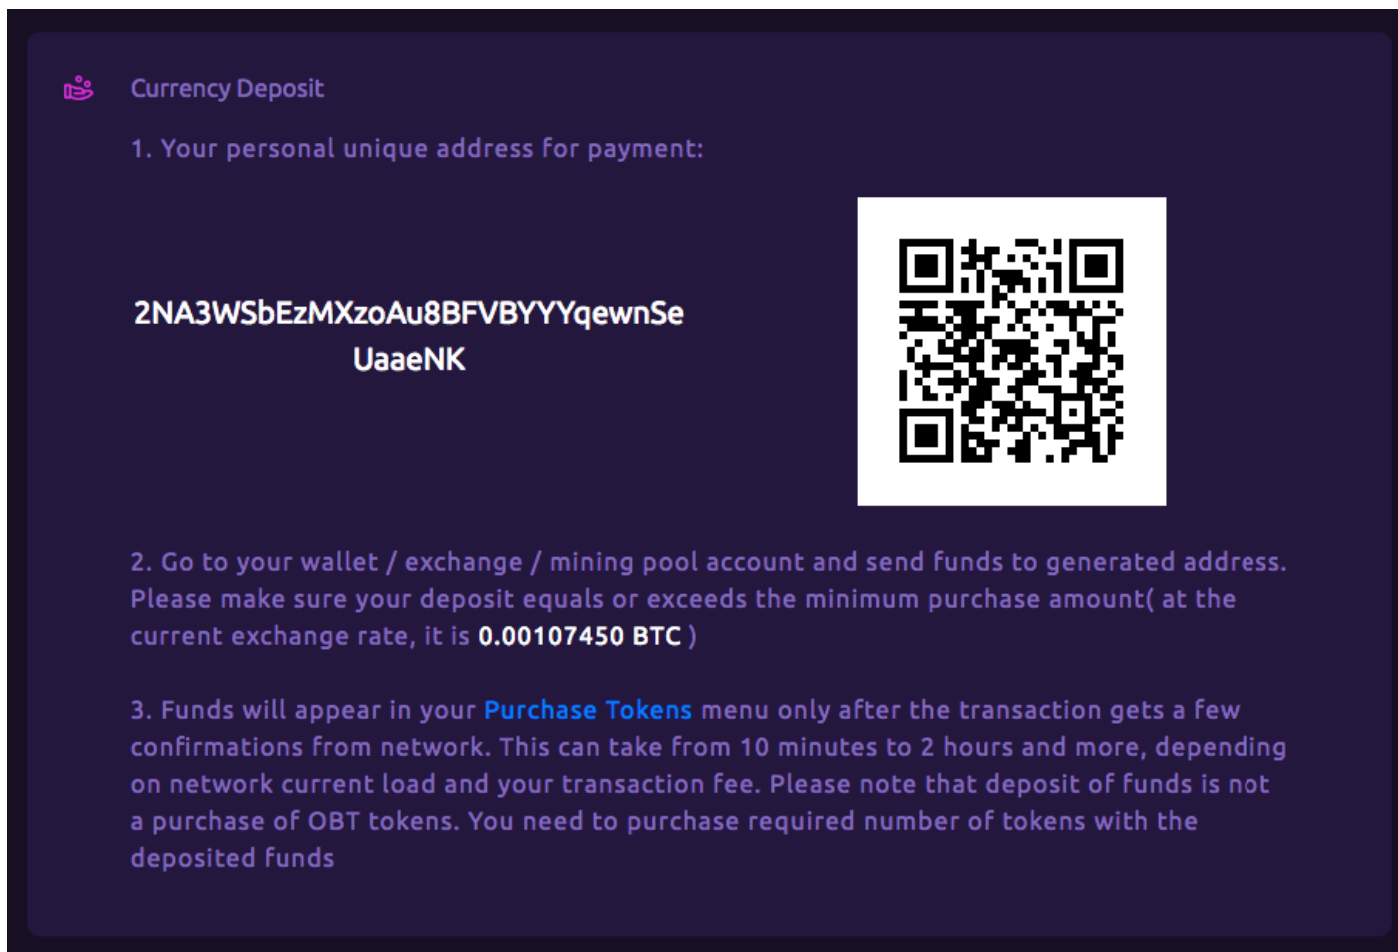

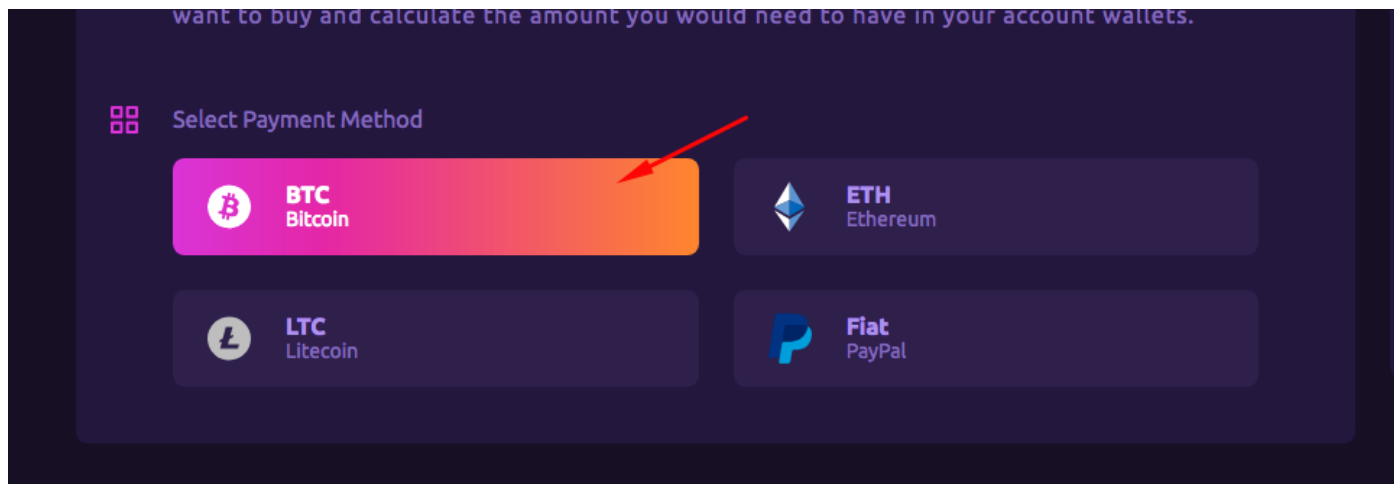

Important:

Please note, that depositing funds to your account doesn't mean the purchase of the OBT tokens. After the funds are deposited, you need to complete Step 4 to purchase OBT tokens.

If you want to purchase OBT tokens with any altcoins , please note that the price of OBT tokens would be calculated at the time of actual purchase of the OBT tokens, not at the time of depositing funds to your account. We'll use the actual rate every time, when you make a purchase.

OPTION 1—CRYPTOCURRENCIES

To make a deposit in **cryptocurrency**, you need to choose your type of currency, and push **Continue** button. Then your personal unique address for payment will be generated.

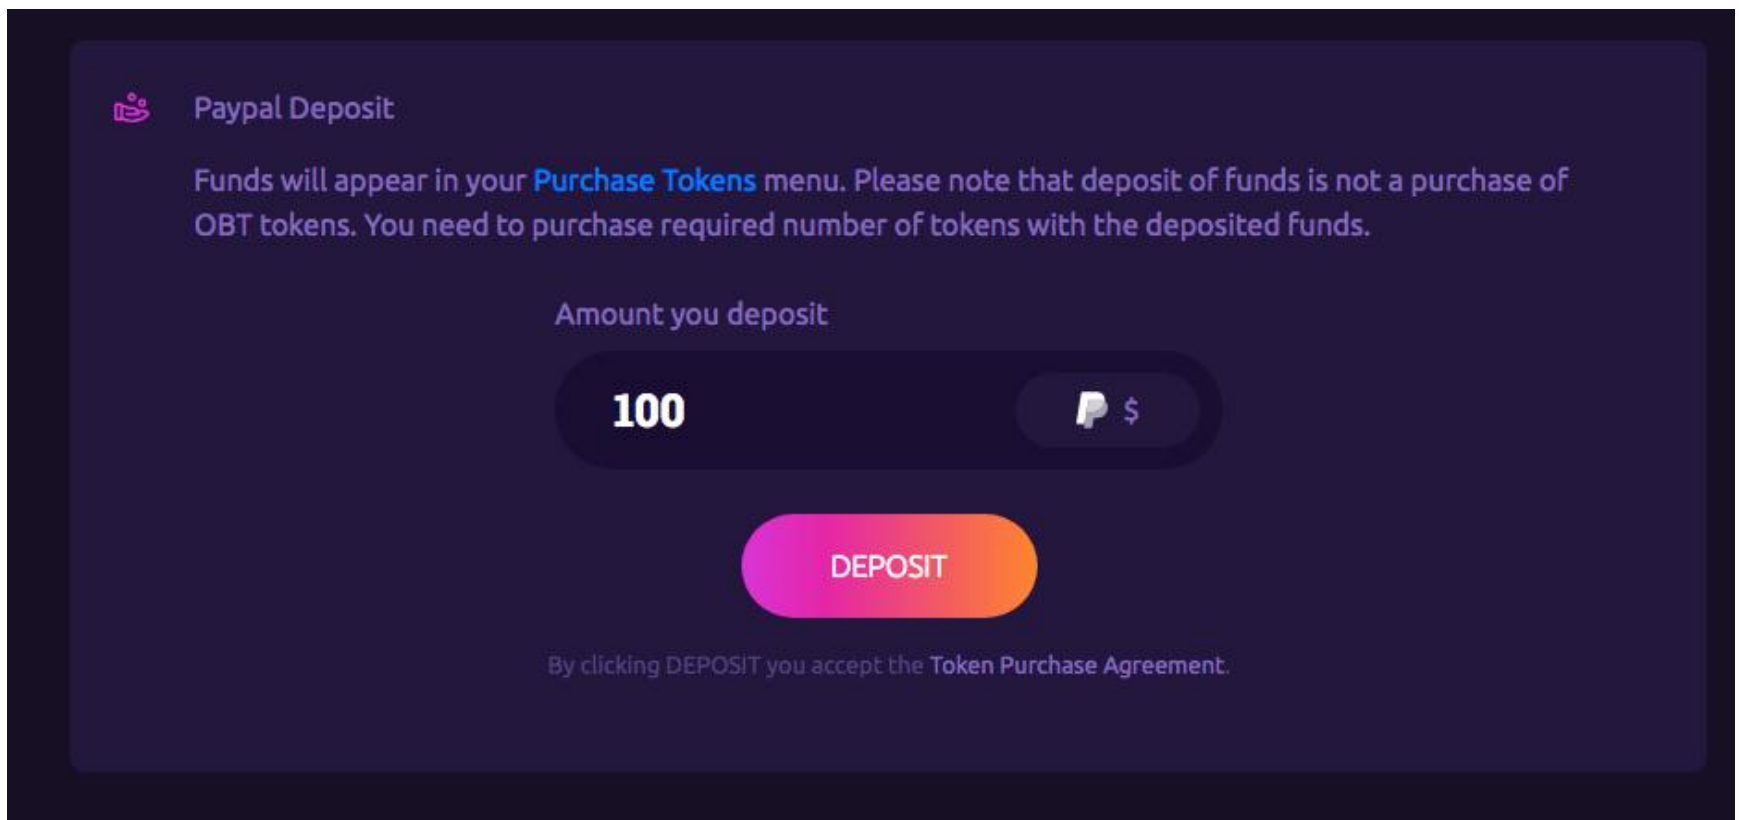

After this go to your wallet / exchange / mining pool account and send funds to generated address. Please make sure your deposit equals or exceeds the minimum purchase amount (at the current exchange rate, it is 0.00107450 BTC)

Funds will appear in your Purchase Tokens menu only after the transaction gets a few confirmations from the network. This can take from 10 minutes to 2 hours or more, depending on the network current load and your transaction fee.

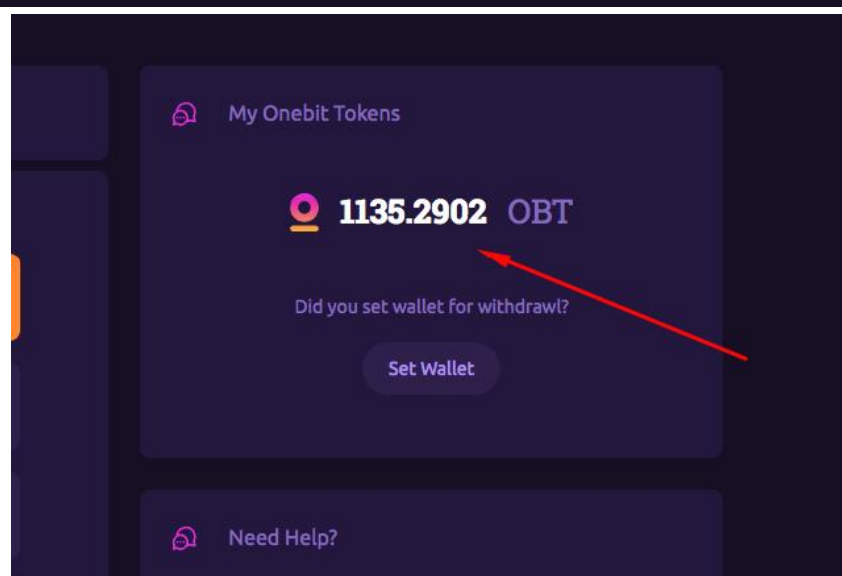

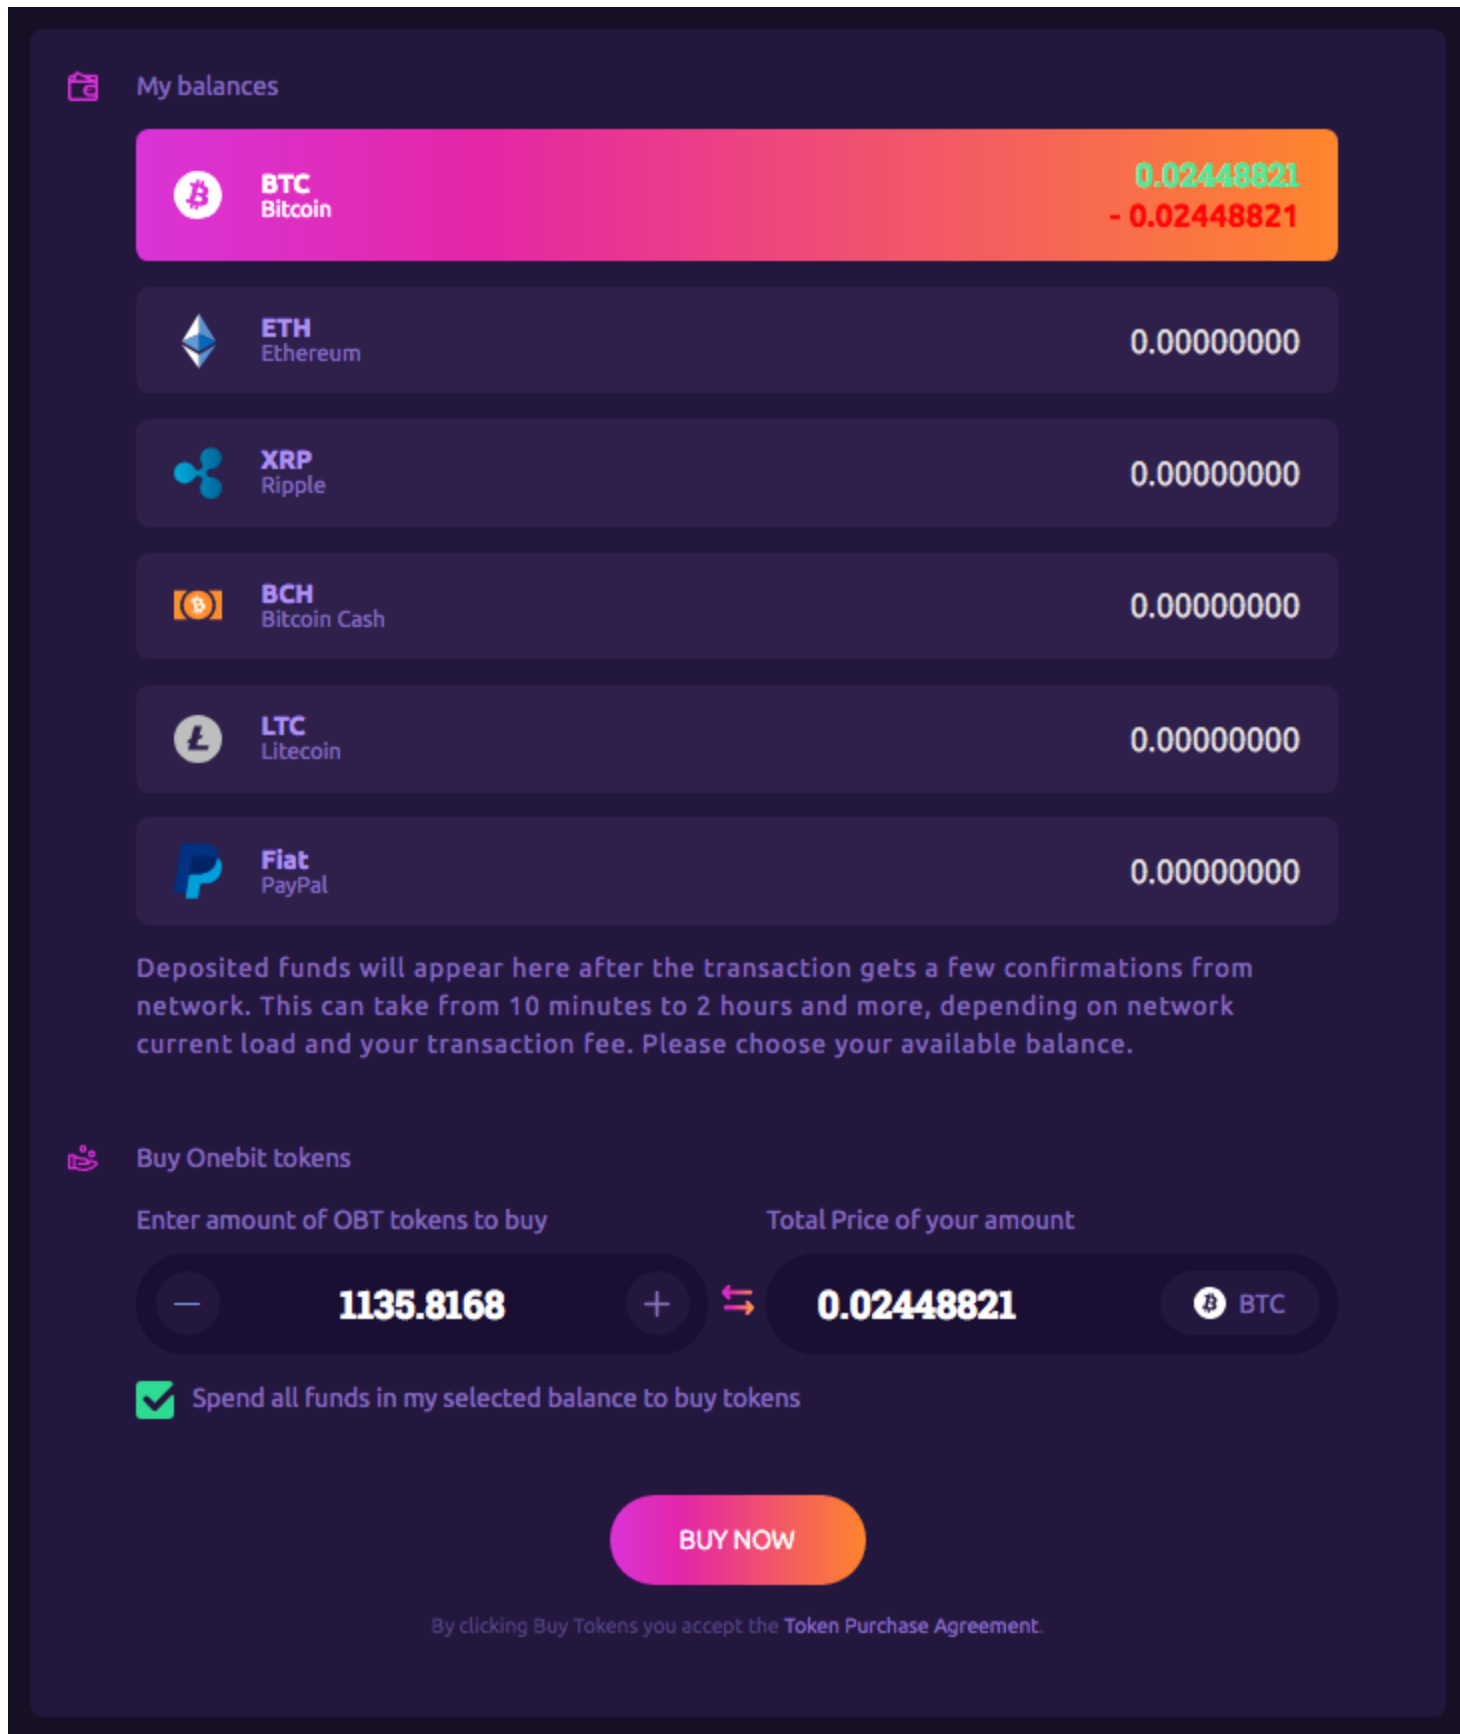

OPTION 2—PAY IN USD

If you want to deposit **USD** to your account, you need to input deposit amount. Minimum amount for this type of transfer is \$100.

Step 4: Buying tokens

After you made a deposit you can buy tokens—hooray! Just enter the amount that you wanted (or use “**Spend all funds**” button in your account), check total price and click “**Buy now**” button. Congratulations! You’re done—now you have OBT tokens!

Tokens will be distributed to your account immediately—this applies to purchased tokens, bonuses for the purchase or deposit.

If you didn't get tokens, please, contact our Support: support@onesocialnetwork.io

Step 5: Set your wallet for withdrawal

1. Click on the 'Set wallet for withdrawal' on the right box, or go to settings page.

 Set Withdrawal Wallet

ATTENTION: Regardless of how you are making your purchase, an ETH wallet is needed to link to the smart contract that is in control of the COIN (OBT) token distribution. This wallet will be where we'll distribute your COIN should you choose to withdraw it from our platform once it has been minted and is ready for distribution, shortly following the close of our main token sale in Aug of 2018. Do not register a wallet address from an exchange (Kraken, Poloniex, Coinbase, etc.) Be sure to enter the address of a wallet that allows you to interact with ERC20 token contracts such as [MyEtherWallet](#), [Parity](#) or [MetaMask](#).

SAVE

2. Enter your ETH wallet address. Please make sure that your wallet supports ERC-20.

3. **Click SAVE button to save changes**

What do you do with tokens? You can withdraw it to your wallet or keep it for some time on your Onebit account (deadline for withdrawal is a few days after the end of ITO or hardcap). The withdrawal process is automated, but you'll need to push the button to confirm payment.

Note: Tokens will be locked in account until after ITO and Audit is complete. All contributors must pass KYC in order to receive tokens.
